

## Example Multi-Year Plan

(see Curriculum Guide for specific Pathways)

This multi-year plan demonstrates how the 2015+ PSD graduation requirements can be satisfied. Courses are displayed in the graduation categories they would satisfy in this scenario, as a transcript would show.

✓ = Graduation requirement category is satisfied

For example, this student meets the 10 credits required in the “World Language & Culture” category by passing French 1 in 9<sup>th</sup> Grade. Additional courses in the “World Language & Culture” category count toward the “Electives” category once the requirement is satisfied.

How elective credit works:

Once a graduation category requirement is met, additional courses taken in that category are counted towards the “Electives” category.

For example, PSD requires 30 credits in the “Science” category, once the 30 credits are satisfied in 11<sup>th</sup> grade, additional science classes count towards the “Electives” category.

Year	Class	Science Cr.	Electives Cr.
9 <sup>th</sup>	MYP Biology	10	--
10 <sup>th</sup>	Earth Systems Science	10	--
11 <sup>th</sup>	Chemistry	10	--
12 <sup>th</sup>	AP Chemistry	--	10
